

making better healthcare possible®

Allscripts Enterprise EHR Solutions

A Staffing Service

Santa Rosa Consulting offers a wide range of professional services for the Allscripts Enterprise EHR application. Our consultants have in-depth expertise with all aspects of the application and have successfully delivered proven results in complex environments for our clients. Santa Rosa has deep experience in the following aspects of Allscripts Enterprise EHR:

- Planning & Assessment
- Project Management
- Implementation & Build
- Training & Go-live Support
- Reporting
- Integration

Planning & Assessment

By leveraging our extensive Allscripts Enterprise EHR experience, Santa Rosa will assess your current implementation, identify areas of risk, and provide detailed recommendations to mitigate those risks and keep your implementation on track.

Project Management

Santa Rosa provides experienced project managers to ensure the success of your Enterprise EHR implementation. Through the use of our proven methodologies and best practices, Santa Rosa's project managers will guide your organization to a successful Enterprise EHR rollout.

Implementation & Build

Santa Rosa's implementation consultants all have in-depth experience and training in Enterprise EHR version 11.2. They also have the operational experience necessary to help understand your current workflows and how they can be incorporated into the new application.

Training & Go-live Support

Santa Rosa provides education services for the Enterprise EHR application to meet your organization's needs. We provide remote training sessions via the internet, on-site classroom style training, as well as train-the-trainer services so your education department can handle training for future users. Santa Rosa will also support your

making better healthcare possible®

clinicians and users once the Enterprise EHR goes live. We have a team of clinicians and super-users with real-world experience that can help make the transition to the Enterprise EHR as seamless as possible.

Reporting

Now that all of your data is stored electronically, Santa Rosa can help with any of your Enterprise EHR reporting needs. From custom report development to analytics and data warehousing, we will help make use of the information contained in your EHR.

Integration

Santa Rosa has a team of associates ready to help integrate your EHR with your other systems. We also have experience integrating Allscripts Enterprise EHR into a Health Information Exchange.

We welcome you to call Santa Rosa today at 866-944-4772 to learn more about how we can help your organization.
