SANTA ROSA CONSULTING ANNOUNCES IT SECURITY SOLUTION WITH FORTIFIED HEALTH SOLUTIONS

ACQUISITION OF EGIS SYSTEMS, LLC. COMPLETED

Nashville, Tennessee— September 3rd, 2013 - Santa Rosa Consulting, Inc. announced today that it has completed the acquisition of EGIS Systems, LLC. Focused solely on IT security, EGIS Systems concentrates on the Healthcare industry. EGIS Systems provides managed services for network security, technical and security assessments and complete IT security remediation and support. As a result of the acquisition, EGIS will be renamed, ***Fortified Health Solutions, a Santa Rosa Company.***

Santa Rosa, ranked #413 on Inc. Magazine's list of fastest growing private firms, further accelerates its growth with the acquisition of EGIS Systems. As healthcare providers face continued pressure to achieve maximum value from their IT investments, the combined capabilities of the Santa Rosa Consulting Companies and Fortified Health Solutions' expertise will provide a valuable set of resources. The addition of Fortified Health Solutions (EGIS Systems) augments Santa Rosa Consulting's, InfoPartners' and Sandlot's ability to provide critical and regulatory IT security services to our clients.

"Through this strategic acquisition, Santa Rosa Consulting continues to strengthen our broad suite of HIPAA compliance services. We now offer ongoing IT Threat Management and Protection Services (including internal, external and web penetration testing) providing a continual shield against malicious and unauthorized access to patients' data," said Tom Watford, President and COO of Santa Rosa Consulting. "Augmenting Santa Rosa's already strong security, privacy and breach notification assessment and remediation services, Fortified Health Solutions' specialized services further help our clients to significantly **fortify** their IT environments in light of increasing business and regulatory requirements to meaningfully use and share ePHI and sensitive patient data," said Mr. Watford.

--More--

“We believe our skills and services will be additive to the Santa Rosa family of companies and will allow us collectively to provide exceptional value to a broader client base,” said Troy McClendon, EGIS Systems, LLC., now President of Fortified Health Solutions.

About Santa Rosa Consulting

Santa Rosa Consulting, Inc. is a national provider of advisory, consulting, implementation and integration, and staffing services to the healthcare industry. Through our unique blend of management advisory services and technical consulting expertise across the full range of IT vendor products and systems, we deliver solutions specifically designed to address the business needs of the healthcare market.

About Fortified Health Solutions, formerly EGIS Systems, LLC

Fortified Health Solutions, formerly EGIS Systems LLC, is focused on providing IT Network and Security Management Services. We strive to protect our client’s technological assets against the ever growing and changing IT security threats. Fortified Health Solutions provides our clients a secure IT environment where they can concentrate on their business while knowing their data is safe.
