Santa Rosa Consulting Adds NextGen Services Leader

Industry Veteran Troy Teasdale Joins Santa Rosa

Southfield, Michigan. Santa Rosa Consulting, Inc., a national provider of information technology consulting, management consulting and staffing services to the healthcare industry today announced that Troy Teasdale has joined the Company as an Associate Partner. Troy will be responsible for Santa Rosa's NextGen practice.

Troy has over 25 years of experience in the information technology and healthcare industry.   While at TSI Healthcare, he served as the Chief Technology Officer and Director of National Accounts. During this time he spearheaded the company's technical operations and architected efficiencies and enhancements to customer support, product development and implementations. Troy was also involved in the research and management of a Citrix-based ASP and support solution for a hosted NextGen EPM and EHR access for hundreds of healthcare providers. He has more than nine years of experience with NextGen EPM/EMR/EHR systems and specialty database setup and installation including SQL, Crystal Report, custom stored procedures and development team management related to the NextGen application suite. Troy frequently provided consultation support and services to providers and clinical administrative decision makers to advance existing technical healthcare infrastructure to CCHIT certified electronic health record systems for the purpose of meeting "Meaningful Use" compliance. Troy also served as the Implementation and Education Manager at Benchmark Systems where he partnered with physicians and clinical staff to customize and oversee the implementation for the NextGen electronic medical records system. He was relied upon by the sales staff at Benchmark Systems for product demonstrations, technical support and product knowledge. Troy's professional accreditations include certifications with Cisco, Dell and NextGen, to name a few. He graduated from Florida Atlantic University with a Bachelor of Science in Computer Science.

Mark Scruggs, Santa Rosa's leader of Implementation and Integration Services, said, "Troy's addition to the Santa Rosa team is a significant step forward as we continue to broaden and deepen the scope of services we offer to our healthcare clients. Troy's expertise in the NextGen suite of products and his overall depth of experience will help Santa Rosa to continue to deliver value and provide high quality services to assist our clients. Troy's contribution will be especially valuable in the current environment as our clients work toward timely achievement of "meaningful use." We are extremely pleased to welcome Troy to Santa Rosa."
